

19th Annual WORLDSymposium™ 2023 Media Policies

Journalists who are employed by accredited news organizations attending the meeting for the purpose of editorial coverage will be granted media credentials and receive complimentary annual meeting registration. WORLDSymposium does not have a designated media room/press room.

Required Material for Receiving Official Approval

Journalists

- A letter verifying assignment to the meeting on the letterhead of the news organization being represented
- Media identification (such as an international accredited press pass), or a business card issued by a recognized news organization.

Freelance Journalists

- Copies of three bylined lysosomal-disease-related articles
- An official letter of assignment from an accredited news organization.
- Those who freelance but do not have three bylined articles are not eligible for registration.

Newsletter Media

- Three issues of their newsletter containing at least one bylined article (If a representative was registered as media at a previous annual meeting, one of the issues submitted must illustrate the resulting editorial coverage.)

Online Media Representatives, Medical Publishing Companies, Healthcare Society/Associations, University Publications

- Appropriate media credentials (i.e., a letter of assignment and/or a business card from a recognized news organization) and meet the following criteria:
 1. Original, editorial news coverage
 2. Editorial freedom from advertisers and/or sponsors
 3. Multiple advertisers that are clearly identified

PLEASE NOTE: Companies or organizations producing publications, videos, and/or other electronic media intended for marketing, advertising, financial analysis, or public relations purposes may not register as media. Financial analysts and public relations personnel may not register as media. Information regarding media registrants is proprietary.

WORLDSymposium does not give, rent, or sell current, past, or on-site media registration lists.

EMBARGO POLICY

Media are required to abide by the embargo policies governing WORLDSymposium. The embargo policy states that coverage of abstracts being presented at the annual meeting is strictly prohibited until the start time of the presentation or the beginning of the media briefing containing the research, whichever comes first. The embargo on platform (oral) presentations lifts when the oral presentation is presented. If a platform (oral) presenter chooses to present their oral presentation also as a supplementary poster presentation, the embargo lifts at the earlier of the two presentations.

The WORLDSymposium Embargo Policy applies to all 2023 platform AND poster presenters. The 2023 ePosters will be available beginning on Wednesday, February 22, 2023, at 3:00 PM EST. The embargo

lifts at the time of the oral presentation **for speakers who are assigned to speak on Wednesday, February 22, 2023**. The embargo for **all other speakers** lifts at 3:00 PM EST on Wednesday, February 22, 2023, when ePosters are opened to the audience.

WORLD*Symposium* does not publish the full-text of the abstracts online; the full-text is available only from [Elsevier](#) for accepted abstracts submitted to WORLD*Symposium* prior to October 1, 2022, to be published in the February 2023 special “Lysosomes Issue” of *Molecular Genetics and Metabolism* (MGM). WORLD*Symposium* has no control over the Elsevier publication release dates. **Registered attendees** will receive an electronic copy of the program and full-text abstracts beginning on Tuesday, February 21, 2023. The program and abstracts become copyrighted and are only available to **non-registrants** through [Elsevier](#).

Content that may be pre-published online in advance of print publication is still subject to the WORLD*Symposium* embargo policy.

Abstracts not scheduled for presentation at the annual meeting have an embargo date of the official release of the abstracts to the public, and press releases on these abstracts must contain the following notification: “This abstract was not selected for presentation at an oral or poster session; it was printed in the WORLD*Symposium* Program and Abstracts Book.”

Correct Use of WORLD*Symposium*™

Please be aware that proper use of the trademarked WORLD*Symposium*™ name is required in all press releases.

WORLD is an acronym for **We’re Organizing Research on Lysosomal Diseases**.

WORLD is always ALL CAPS, with Symposium always in italics. WORLD*Symposium* is always one word. In other words, WORLD*Symposium* should never be used as two words (World Symposium) and never only one word (WORLD).

The brand name is trademarked and should be used appropriately.

On-site Guidelines

Registered media are required to wear media badges at all times while on site at the annual meeting.

All scientific sessions, and oral and poster abstract sessions at the annual meeting are open to the media. Entry into sessions requires a badge.

Audio Recording, Video Recording, and Photography

Journalists and members of the media may not share or republish slides, unpublished data, or presentation materials from scientific presentations without explicit written permission from the presenter. Media members, along with all attendees, are expected and required to abide by any recording or photography requests made by a presenter in a scientific session. Photography and recording for personal and note-taking purposes are allowed.

Registered media (with badges) are permitted to photograph or audiotape ONLY during the poster sessions if they have obtained written permission from the poster presenter beforehand. No other photography, or audio or video recording is allowed. Members of the media who record poster information for which they have not obtained permission will be asked to leave the conference immediately.
